

wAlge

**AI-POWERED
INCOME FOR LIFE**

WAIGE.AI

LITEPAPER

WHAT IS WAIGE?

WHAT IS WAIGE?

wAlge is the revolutionary AI employee built to replace workers.

It collects data while it works allowing it to expand its capabilities and broaden the industries and roles it covers until it replaces every job.

When a worker is replaced by wAlge, profits will be shared with holders of the wAlge token providing them with a guaranteed salary for life, allowing them to relax while AI does the work.

REPLACING JOBS

REPLACING JOBS

AI is growing more powerful every day.

Even in 2022 the images produced by AI were abstract and poor quality, yet today appear like photographs. Language models have become so advanced that screenwriters spent months on strike to prevent their use. And this is just the tip of the iceberg.

All jobs will eventually be replaced by AI. It is inevitable. Buying wAlge allows you to ensure your income will increase when this happens, not decrease.

SPECIAL ACCESS

SPECIAL ACCESS

Not only can holders of wAlge directly earn wages from it. They will have special access to its early and premium versions, allowing holders to utilise its full power before anyone else.

Soon entire companies can be set up and run within an instance using wAlge's considerable processing power. Imagine that power at your fingertips before anyone else gets the chance!

STAKE TO EARN

STAKE TO EARN

Income collected from the wAlge AI is paid directly to staked holders in wAlge tokens.

wAlges are paid every 30 days in line with the minimum staking period.

TAXES

TAXES

5% Buy

3% Reflections / 2% AI Development

7% Sell

4% Reflections / 3% AI Development

Reflections are paid only to staked holders to ensure fair redistribution of tokens and are paid every 30 days.

The remaining tax is sent to the team for development of the wAlge AI, allowing more income to be earned to pay holders.

TOKENOMICS

1 billion launch supply:

- 500mil Fairlaunch
- 300mil Liquidity
- 200mil CEX listing

TEAM

TEAM

George wAlge

Tech

George has been building leading tech for who is who in the industry for the last 40 years. He has had a long stint with Microsoft and Oracle before venturing into blockchain. He can literally write any kind of code. He is a key asset for wAlge.

SAFU Master

Marketing

An advocate of SAFU crypto, partnership builders and a web3 accelerator, Safu is an experienced Pinksale-approved project incubator that has guided tens of projects into millions of dollars of raises with gigantic market caps. Having never put his name on a project before, the potential of wAlge drew him to not only being their first investor, but a core member of the team.

Tim wAlge

Operations

Tim leads the operations of wAlge with 10 years of company ownership experience, and 3 years in the blockchain having been involved in the launch of several successful projects. A key proponent in the architecture design of the AI itself, he ensures the smooth running of wAlge.

ROADMAP

PHASE 1

- wAlge launch
 - Staking platform launch
 - Trendings / Listings
 - T2 CEX Listings
 - wAlge AI development
-
- \$4m+ Daily Volume
 - 2500+ Holders

PHASE 2

- Certik Audit
 - wAlge deployment & testing
 - wAlge holder special access
-
- \$20m+ Daily Volume
 - 10000+ Holders

PHASE 3

- T1 CEX Listings
 - wAlge live
 - Daily income generated by AI
-
- \$50m+ Daily Volume
 - 100000+ Holders
